

Dear FCC:

I think it is unconscionable to pass further regulations allowing ownership of TV media and Newspaper media in the same geographic area.

Diversity as well as opposing opinions foster competition and prevent one-sided viewpoints to the public which needs to be informed. When one of the only two newspapers in this great metropolitan area folded, I quit reading the newspaper because of the its bias content.

I am getting very close to doing the same with listening to television as it is clear that it is a war to sway the public opinion on issues. Commercials have so overpowered any programming that it is not even worth watching anymore.

Sincerely,

R. Holt
